HCC Brays Oaks Campus Parking Lot Expansion – 8855 W Belfort St – IFB #19-47

Question Response

1. **Q:** The project plans refer to a geotechnical (soils) report for stabilization requirements. I am unable to locate the report in the bid documents. What are the subsoil stabilization requirements and is there a Geotech report available?

A: Geotechnical report attached.

2. **Q:** Will an addendum be provided with more specific information regarding the data conduit requirements?
- a. Length of required conduit.
 - b. Location of stub up
 - c. Specific requirements regarding conduit “run” inside fenced equipment area.
 - d. Wall penetration requirements (Location)

A: Sheet E2.00 has been revised to show the proposed routing of the communication conduit. The location of the camera should be confirmed with HCC prior to start of construction. The wall penetration detail is shown on E4.00.

3. **Q:** On sheet E.2.0 Keynote Legend Item no. 1: Please locate underground route of 1" conduit to serve POE security camera and specify penetration details at building and termination points on both ends.

A: Sheet E2.00 has been revised to show the proposed routing of the communication conduit. The location of the camera should be confirmed with HCC prior to start of construction. The wall penetration detail is shown on E4.00.
