

Solicitation Amendment No. 001

To: Prospective Bidder/Offeror:	Date:
Prospective Proposer	May 8, 2018
Project Title:	Project No.:
Facilities Condition Assessment Services	RFP 18-26

The Request for Proposals (Project RFP No. 18-26) is hereby amended as set forth below:

1. The reference in Section 2.2 Method of Collection, stating the "inspection team will include architects and engineers" is hereby deleted from RFP 18-26. It is the intention of HCC to procure the services of a firm that will provide a facilities condition assessment report and not procure any professional services under this solicitation.

Any contract resulting from this RFP will allow the firm to perform a thorough review of all HCC facilities as noted in the scope of services, review prior reports and interview key personnel with the goal of delivering a complete facilities assessment report that will minimally include an inventory, operational condition and proposed schedule for the asset based on the action levels as noted in the scope of services.

Recommendations for repairs and corrections, as well as cost estimates for such recommendations are required under this project; however, the selected vendor will not be expected to provide architectural or engineering services or to engage in capital planning.

Such work that may be required in the future shall be sourced separately and in accordance with Government Code 2254.

Except as provided herein, all terms and conditions of the solicitation remain unchanged and in full force and effect.
